db x-trackers S&P 500 SHARIAH UCITS ETF

Share Class: 1C (ISIN: LU0328475362), (WKN: DBX1A5), (Currency: USD)

a sub fund of db x-trackers. The Fund is managed by DB Platinum Advisors, part of the Deutsche Bank Group.*

Objectives & Investment Policy

The aim is for your investment to reflect the performance of the S&P 500 Shariah Index (Index) which is designed to reflect the performance of shares of 500 US companies, which have been selected in compliance with Islamic investment guidelines.

The companies represent all major US industries. Some companies are excluded as their business is considered non-compliant with Islamic investment guidelines, for example: gambling, non-Islamic financials, pornography and alcohol. Companies with a high level of borrowing or cash or which receive a high level of income from non-compliant business and clients are also excluded.

The Index is a total return net index. This means that the Index calculates the performance of the shares comprising the Index on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

To achieve the aim, the Fund will buy shares that comply with Islamic (Shariah) law and enter into Shariah compliant agreements with Deutsche Bank relating to the shares and the Index, in order to obtain the return on the Index.

No dividends will be paid on your shares.

You may redeem your shares on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 5 because of the high range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund does not invest directly in the components of the Index and its returns will be dependent on the performance of the shares and the performance of the Shariah compliant agreements.

The Fund will enter into Shariah compliant agreements with Deutsche Bank. If Deutsche Bank fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss.

Deutsche Bank and its related companies may act in several roles in relation to the Fund such as distributor and management company, as well as entering into Shariah compliant agreements with the Fund, which may involve conflicts of interest.

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

The S&P 500 Shariah Index is a trademark of Standard & Poor's and has been licensed for use by the Fund. The Fund is not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's does not make any representation regarding the advisability of investing in the Fund.

It should be noted that differences exist among Islamic scholars and advisers as to the nature of Shariah compliance and no assurance is given that other Islamic scholars or advisers would determine that the Fund and the underlying investment structure are Shariah compliant.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.
