Schroder Japan Alpha Plus Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited

Class Z Accumulation GBP (GB00B3TVPT88)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide capital growth and income.

Investment Policy

At least 80% of the fund will be invested in a concentrated range of shares of Japanese companies.

'Alpha' funds invest in companies in which we have a high conviction that the current share price does not reflect the future prospects for that business. The fund will typically hold fewer than 50 companies and has no bias to any particular industry or size of company.

The fund has an emphasis on small and medium-sized companies. In terms of investment research, this area of the market is not as widely covered as the largest companies in Japan. As a result, there is considerable scope for our intensive company-by-company

research to uncover good investment opportunities that have been overlooked by other investors.

The fund may also invest in other financial instruments and hold cash on deposit. Derivatives may be used to reduce risk or manage the fund more effectively.

Benchmark

This unit class is not managed with reference to a financial index.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

Risk and Reward Profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

The following risks may affect fund performance.

Currency risk: The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

Equity risk: Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of fund operations or losses.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year	
Ongoing Charge	0.96%
Charges taken from the fund under certain specific conditions	
Performance fee	None

This is the maximum that might be taken out of your money before it is invested.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending March 2015 and may vary from year to year.

Please see the prospectus for more details about the charges.

Past Performance

1 Performance shown during this period predates the launch of this unit class and has been simulated using the history of a similar unit class within the fund.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 1 December 2000.
