INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00B7ZBBW57)

A SUB-FUND OF BNY MELLON INVESTMENT FUNDS

THIS FUND IS MANAGED BY BNY MELLON FUND MANAGERS LIMITED

OBJECTIVES AND INVESTMENT POLICY

To achieve a total return.

POLICY

The Fund will:

- invest anywhere in the world, including emerging markets;

- invest in bonds with high and low credit ratings (i.e. investment grade and sub-investment grade bonds without restrictions on credit quality as rated by Standard and Poor's or similar agencies);
- invest in asset-backed securities (ABS). These are securities whose value and income payments are derived from and collateralised (or "backed") by a specified pool of underlying assets;
- invest in derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying

investment) with the aim of generating returns and reducing the overall costs and/or risks of the Fund; and

- limit investment in other collective investment schemes to 10%.

The Fund may:

- invest significantly in cash and cash-like investments.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

Treatment of income: income from investments will be retained within the Fund. This will increase the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each working day in the UK. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 10,000,000.

RISK AND REWARD PROFILE

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. As this Fund has less than five years performance data available, it is based on simulated volatility and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 3 because its simulated historical value has shown moderately low volatility. With a Fund of category 3, you have a moderately low risk of losing money but your chance for gains is also moderately low.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

- There is no guarantee that the Fund will achieve its objective.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

- The Fund will use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment.

- Investments in bonds are affected by interest rates and inflation trends which may affect the value of the Fund.

- The Fund holds bonds with a low credit rating that have a greater risk of default. These investments may affect the value of the Fund.

- The Fund invests in emerging markets. These markets have additional risks due to less developed market practices.

- The Fund invests in asset-backed securities which means your investment is likely to be closely linked to changes in the value of the underlying assets on which the asset-backed securities are based.

- The Fund takes its charges from the capital of the Fund. Investors should be aware that there is potential for capital erosion if insufficient capital growth is achieved by the Fund to cover the charges. Capital erosion may have the effect of reducing the level of income generated.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".
