

# Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Threadneedle Managed Portfolio 6 (the "Fund")

Class Z Net Income Shares (GBP) GB00B84W6V04, a sub-fund of Threadneedle Investment Funds IV ICVC (the "Company").

This sub-fund is managed by Threadneedle Investment Services Limited (the "Management Company").

### Objectives and investment policy

The aim of the Fund is to grow the amount you invested.

Threadneedle Managed Portfolio funds 3 to 7 aim to provide opportunities for investment dependent upon different attitudes to risk. Threadneedle Managed Portfolio 3 has a relatively low level of risk with a progressively higher risk profile through to Threadneedle Managed Portfolio 7.

The Fund is designed for an investor who is prepared to be fully exposed to the risk of stock markets through a diverse portfolio spread across different asset types and markets.

The Fund invests using regulated and, potentially, unregulated funds which aim to achieve their return by exposure to global equities possibly together with minor exposure to bonds (which are similar to a loan and pay a fixed or variable interest rate), property and commodity linked investments. Commodities are physical materials such as oil, agricultural products and metals.

The Fund may also invest in asset classes and instruments different from those stated above.

The Fund makes active investment decisions.

Any income the Fund generates will be paid out to your bank account.

You can buy and sell shares in the Fund on any day that is a business day in London.

You can find more detail on the objectives and investment policy of the Fund in the section of the prospectus with the heading "The Funds and their Investment Objectives and Policies", and in Appendix I.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

The Fund is in this specific category because historically it has shown a medium to high level of volatility (how much the value of the Fund went up and down compared to other categories).

The lowest category does not mean a risk-free investment.

As this Fund invests into other funds you should consider the underlying investments and overall risks.

Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.

The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The investment manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the section of the prospectus with the heading "Risk Factors".

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	1.51%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on expenses for the year ending 31/03/2014. This figure may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

## Past performance

You should be aware that past performance is not a guide to future performance.

Fund launch date: 29/07/2008.

Share/unit class launch date: 01/10/2012.

Performance is calculated in GBP.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

## Practical information

The Depositary of the Company is HSBC Bank plc.

You can obtain further information regarding the Fund, the Company, its Prospectus, latest annual reports and any subsequent half-yearly reports free of charge from the Management Company. The documents are available in English. You can obtain other practical information, including current share prices, at [columbiathreadneedle.com](http://columbiathreadneedle.com).

The tax legislation of the UK may have an impact on your personal tax position.

This document describes a fund of the Company. The Prospectus, annual and half-yearly reports are prepared for the entire Company.

The Company is comprised of multiple funds which are segregated by law. Rights of investors and creditors concerning a fund or arising from the creation, operation or liquidation of a fund are limited to the assets of that fund.

You can exchange your shares for shares of other funds of the Company, as and when available. Information as to how to exercise this right is in the section of the Prospectus with the heading "Switching / Converting". Details of other share classes of the Fund can be found in the prospectus or at [columbiathreadneedle.com](http://columbiathreadneedle.com).
