

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## F&C Global Bond Fund

Share Class: 2 Inc, a Fund of F&C Investment Funds ICVC II (ISIN GB00B8NVWM12).  
This Fund is managed by F&C Fund Management Ltd.

### Objectives and investment policy

The objective is to provide income.

The Manager seeks to achieve this by investing mainly in an international portfolio of interest-bearing securities (securities that pay either a fixed or variable level of income on a periodic basis and generally repay a specified amount at a pre-determined date), including those issued or backed by the UK Government.

While the Manager will invest mainly in securities issued by governments, it may also invest in other investments such as investment grade corporate bonds (fixed income securities issued by companies and other non-governmental organisations with an independently assessed credit worthiness rating of AAA down to BBB) and derivative contracts (an investment contract between the Fund and a counterparty the value of which is derived from one or more underlying assets) to hedge positions or to manage the fund more efficiently.

Hedging is an investment technique that may be used to protect the value of the Fund from adverse price movements in bonds or in currencies other than the Fund's accounting currency, which is sterling.

The Fund normally hedges its overseas exposure back to sterling.

Income is distributed six-monthly.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 3 years.

You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk

Typically higher rewards, higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Fixed Interest Securities Risk: changes in interest rates can affect the values of fixed interest holdings.

Credit Risk: receiving income or capital due from debt instruments is dependant on the provider's ability to pay.

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	1.88%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 31/12/2017

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at [www.bmogam.com](http://www.bmogam.com).

## Past performance

You should be aware that past performance is not a guide to future performance.

Fund launch date: 27/12/1981.

Share/unit class launch date: 16/11/2015.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and gross of tax.
