GBP N AccU

Wellington Global Innovation Fund (the "Fund") a Fund of Wellington Management Funds (Luxembourg) III SICAV (the "Umbrella Fund")

ISIN: LU1912699342

Management company: Wellington Luxembourg S.à r.l.

### OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term capital appreciation.
- The Fund will be actively managed in excess of the MSCI All Country World Index (the "Index"), primarily investing in equity securities issued by companies worldwide including emerging markets, that the investment manager believes have the potential to create new or disrupt existing industries and structural growth opportunities independent of global growth and the economic cycle, focusing on companies that identify areas of innovation and high potential for growth within their industries. The Fund considers the impact of macroeconomic trends, such as consolidation, regulation and industry convergence, that can influence future investment returns. The investment strategy for the Fund focuses on a long time horizon (up to 10 years) as many of the investment themes may take time to develop.
- The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, depository receipts and REITS. The Fund may invest either directly or via derivatives.
- Derivatives may be used to hedge (manage) risk and for investment purposes (such as gaining exposure to a security).
- The Index serves as a reference benchmark for performance comparison and weighted average carbon intensity purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the investment manager will not manage the extent to which Fund securities differ from the Index.
- The Fund will seek to support certain environmental and social characteristics and will abide by the following binding restrictions:
  - The Fund will maintain a weighted average carbon intensity that is at least 25% lower than the Index.
  - The Fund aims to promote gender diversity in board representation by investing at least 33% of the Fund's net assets in companies with three or more women on their board.
- A minimum of 80% of the Fund's net assets will be aligned to the environmental or social characteristics of the Fund.
- Any income allocated to the share class from the Fund is reinvested.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years.
- The currency of this share class is different to the base currency of the Fund and so the performance of the share class will be subject to the impact of the movement of the exchange rate between the currencies.
